## 1.0 PURPOSE

This document defines the policies and guidelines to identify and control nonconforming services within the QMS Scope, and to initiate and record corrective actions taken by the PMDC to eliminate causes of nonconformities and support the intention of continual improvement.

## 2.0 POLICY

The PMDC shall provide services to its stakeholders in accordance with their specified requirements. As such, it is the policy of the company to ensure that all services that do not conform to requirements are identified, evaluated, and resolved in accordance with the guidelines as provided in this document. It is likewise the policy of the PMDC to implement corrective actions to continually improve the effectiveness of the established quality management system.

## 3.0 DEFINITION OF TERMS:

- |  |   |
|--|---|
| 3.1 Nonconformity (NC)                               | - Deviation from a specified requirement that needs immediate action.   |
| 3.1.1 Major Nonconformity (Nonconformity A “major”)  | - Nonconformities could be classified as major in the following circumstances: <ul style="list-style-type: none"> <li>• If there is a significant doubt that effective process control is in place, or that products or services will meet specified requirements,</li> <li>• A number of minor nonconformities associated with the same requirements or issue could demonstrate a systemic failure and thus constitute a major nonconformity.</li> </ul> |
| 3.1.2. Minor Nonconformity (Nonconformity B “minor”) | - Nonconformities could be classified as minor, if these do not affect the capability of the management system to achieve the intended results.   |
| 3.2 Opportunity for Improvement (OFI)                | - An aspect in the Quality Management System that may cause minor errors or possible problems in the PMDC operations and therefore may be further improved to enhance or maintain the effectiveness of the system. This is usually discovered from audit observations.  |
| 3.3 Disposition                                      | - Refers to actions to be taken to nonconformities, such as correction, concession, mitigation of effects.  |
| 3.4 Correction                                       | - Immediate short-term measure to be taken to address an identified NC or OFI.  |
| 3.5 Corrective Action                                | - Long-term measures to be taken to address an identified NC or OFI.  |
| 3.6 Preventive Action                                | - Action to eliminate the cause of potential nonconformity or undesirable situation. Preventive action is taken to prevent occurrence. There can be more than one root cause for an NC/OFI.   |

- 3.7 Internal Quality Audit (IQA) - A procedure to evaluate the effectiveness of the QMS.
- 3.8 Request for Action (RFA) - A form used to initiate and record NC/OFI and monitor the status and actions taken relative to the NC/OFI. The form shall be used by the IQA Team during the conduct of their Audit and/or the PMDC Employee/s who will initiate any identified nonconformity or opportunities for improvement.
- 3.9 Initiator - PMDC Employee who initiated the RFA.

#### 4.0 SCOPE

This document applies to all services provided by the PMDC for its stakeholders, where nonconformities may arise within the QMS scope. This procedure also covers all corrective actions identified when nonconformity is encountered/anticipated through internal audits, customer complaints, problems encountered/anticipated within the QMS Scope and any event that could affect the QMS.

#### 5.0 RESPONSIBILITIES

- 5.1 The Management Representative – responsible for ensuring the proper implementation of this procedure. The MR validates nonconformities, establishes the control methods, defines responsibilities and authorities, and reviews and approves the necessary action to address the identified nonconformity. They are also responsible for ensuring the effectiveness of actions taken.
- 5.2 PMDC Employee/Initiator – aside from a member of the IQA, an employee may also identify nonconformity and initiate the control and disposition measures, in coordination with assigned Supervisor or authorized officer.
- 5.3 Process Owner – Verifies nonconformity and determines root cause of NC/OFI.
- 5.4 IQA Auditors – authorized to initiate RFA through their Audit Team Leader.
- 5.5 IQA Team Leader – maintains a registry of issued RFA.
